INTERNSHIP PRESENTATION · 8-WEEK VIRTUAL
LEARNING JOURNEY

AICTE–EduSkills Virtual Internship Program

STUDENT NAME

Krishna Singh

ENROLLMENT NUMBER

25SCS1003001249

PROGRAM & SEMESTER

Btech· 2nd semester

ORGANIZATION NAME

Simens

INTERNSHIP TOPIC / TITLE

AICTE–EduSkills Virtual
Internship

INTERNSHIP DURATION

8 Weeks

AICTE × EduSkills

AICTE × **EduSkills**

Virtual Internship Portfolio

THE LEARNING ECOSYSTEM

About AICTE & EduSkills

A AICTE

The All India Council for Technical Education supports quality, standards, and growth across technical education in India.

E EduSkills

EduSkills connects learners with structured, industry-oriented learning experiences through virtual internship programs.

PURPOSE

Connect classroom foundations with guided practice, mentor touchpoints, and industry-oriented learning.

THE FRAME FOR EIGHT WEEKS

Internship Overview

DURATION

8 weeks

MODE

Virtual

DOMAIN

Data Science**01-02**

Foundation

03-04

Skill development

05-06

Application

07-08Practice and
completion**LEARNING OBJECTIVES**

- 01 Build domain foundations
- 02 Practise with guided activities
- 03 Apply concepts to a final activity
- 04 Reflect on industry readiness

Major activities completed: [Verified Activities]

WEEKS 01-02

Foundation

01

01 WEEK 1

Introduction

Introduction about data science and business
Related stuff

02 WEEK 2

Data Engineering Professional

Learn to access, load, transform, and calculate data.

FOUNDATION FOCUS

Business problem framing · data access · transformation · calculation

WEEKS 03-04

Skill Development

02

03 WEEK 3

Machine Learning Professional

Build foundational machine learning skills.

04 WEEK 4

Data Preparation Master

Master advanced data handling and automation.

SKILL EMPHASIS

Foundational machine learning

PRACTICE EMPHASIS

Advanced data handling and automation

WEEKS 05-06

Practical Application

WEEK 5

Machine Learning Master

Learn advanced machine learning techniques.

WEEK 6

Applications & Use Cases Master

Deploy and monitor ML models.

05

06

Advanced techniques → deployment → monitoring

WEEKS 07-08

Project & Completion

WEEK 7

Applications & Use Cases Professional

Learn to identify business problems suitable for AI and machine learning.

WEEK 8

Platform Administration Master

Enterprise-level platform operations.

COMPLETION FOCUS

RapidMiner AI Hub administration · enterprise-level platform operations

THE WORKING ENVIRONMENT

Technologies & Tools Used

Replace each placeholder with only the tools actually used during the internship.

01 Programming / development

Python, SQL, R, C/
C++

03 AI / ML tools

Keras, PyTorch,
OpenCV

05 Development environment

Jupyter Notebook, Google
Colab

02 Cloud / infrastructure

Docker, AWS

04 Learning / lab platform

AWS Academy

06 Other verified tools

GitHub

WHAT THE JOURNEY DEVELOPED

Skills & Learning Outcomes

01

Technical skills

Exploratory Data Analysis
(EDA)

02

Problem-solving

Debugged pipeline errors

03

Communication

Translated complex data

04

Teamwork

Collaborated via Git/GitHub

05

Industry awareness

Understood real-world AI/ML deployment

06

Time management

Prioritized
module
milestones

THE VALUE OF THE EXPERIENCE

Overall Experience & Key Takeaways

01 / LEARNING

Core fundamentals of the end-to-end Data Science lifecycle

03 / PRACTICAL EXPOSURE

Hands-on experience working with real-world datasets

02 / TECHNICAL GROWTH

Transitioned from theoretical knowledge to building

04 / CAREER DIRECTION

Solidified foundational expertise for AI/ML engineering roles

Most valuable experience: Translating raw, unstructured data into a fully optimized predictive model.

A COMPLETED LEARNING JOURNEY

From guided learning to practical confidence.

Thank you to AICTE, EduSkills, mentors, and my institution for supporting this internship experience.

Thank You

Krishna Singh · IILM University
